

Liaison report from IEC TC 100/TA 2 to CIE Division 8

Date: 2000-3-20

The former PT61966 of IEC/TC 100 has been restructured as Technical Area Two (TC 100/TA2) with the title "Colour measurement and management". It is allocated directly to IEC/TC 100 as before.

TC 100/TA 2 is under management by the following officers;

- Technical Area Manager (TAM): Prof. Hiroaki Ikeda (Japan)
- Technical Secretary (TS): Mr. Theo Laans (The Netherlands)

All IEC/TC100 projects under the former PT61966 have been moved to TC 100/TA 2. Now project leader of each project is directly responsible to develop the project up to Final Draft International Standard.

The first physical meeting of TC 100/TA 2 was held in Tokyo on 9th and 10th of March 2000, in which Mr. R. Buckley attended representing CIE Division 8 in place of the official liaison officer Mr. Rich. A report from the meeting is available from <http://w3.hike.te.chiba-u.ac.jp/IEC/100/PT61966/tokyo> together with other meeting documents.

The report from the meeting 100/TA2(Tokyo/TAM)17 includes some items which relate to CIE Division 8. I am looking forward to a good collaboration with CIE division 8 experts, specifically in development of a proposed work item 61966-1 (see the item 4.1).

For quick reference, the report 100/TA2(Tokyo/TAM)17 is attached. A report of TAM since the previous meeting 100/TA2(Tokyo/TAM)3 would also of your interest, which includes the basic documents from IEC/TC 100 regarding the restructuring.

Sincerely Yours,

Hiroaki Ikeda  
TA-manager, IEC TC 100/TA 2
